

# How To Patch for billing

---

install from <https://drive.google.com/drive/folders/1cle84kt7aykYzfCHa0pYXbw0Gbcn2dG7?usp=sharing>

## Prerequisite

- modder
- apktool-kotlin
- billing hack apk installed on your device

## installing billing hack server on ur phone

just install the apk from the google drive okay?

download apk first to your computer for patching

```
modder download [APK_PACKAGE_NAME]
```

after download, the apk should be installed in [APK\_PACKAGE\_NAME] patch the apk, to redirect all purchases to our own server

(need to patch `base.apk`)

```
cd [APK_PACKAGE_NAME]  
apktool-kotlin -i base.apk
```

now you need to sign all of the apk (if any multiple in the folder)

```
modder sign *.apk
```

now everything should be ready for testing just delete the old apk from your phone and install the original version

```
cd ..  
modder install [APK_PACKAGE_NAME]
```
